

Agriculture in the Classroom is a nationwide program supported through the United States Department of Agriculture Cooperative State Research, Education, Extension Service and Higher Education Programs.

The state programs have joined together to form the national Ag in the Classroom Consortium for the following purposes:

1. To assume and maintain an active national role in promoting agricultural literacy programs.
2. To provide input into the selection process of the National Director at the United States Department of Agriculture.
3. Provide leadership and a professional network for state Agriculture in the Classroom Programs.
4. Work to insure continuity of the Agriculture in the Classroom Program.
5. Work in cooperation with other national agricultural leadership and/or literacy programs to achieve common goals and objectives

To see what other states are doing with Ag in the Classroom visit the national web site at:
