

Texas has over 1.2 million goats which includes:

- 240,000 Angora goats that produce over 1.6 million pounds of mohair per year
- 1 million meat goats
- 30,000 milk goats

While milk goats are raised throughout the United States, most of the fiber (mohair) and meat goats can be found in Texas.

Texas is #1 in number of goats and mohair production, beating out Arizona, New Mexico, and California.
