

The medical world relies on beef by-products for many life saving or life improving medications and treatments such as:

- **Chymotrypsin** promotes healing of burns and wounds.
- **Collagen** is used in plastic surgery and to make non-stick bandages.
- **Heparin** is an anticoagulant used to treat and prevent blood clots.
- **Pancreatin** aids in the digestion of food.
- **Vitamin B-12** aids in the prevention of B-Complex deficiencies.
