

CHICKEN FACTS

- **The most popular chicken breed raised for meat is the Cornish Rock Cross.**
- **Broiler & Roaster chickens provide main products such as drumsticks, wings, chicken breasts, chicken nuggets, and chicken tenders.**
- **Chickens also provide by-products that are used in making noodles, candy, hot dogs, dog food and much more.**
- **A broiler house may hold as many as 20,000 chickens. Broiler houses are cleaned and disinfected before each new flock of birds is brought in.**
